Day 1, 2, and 3 sessions meet at Firestone Library, e-room A-6-F
Day 4 session meets at Stokes Library- e-room (Wallace Hall)

Contents:

The sessions are hands-on and intended for beginners, no previous knowledge of data analysis and/or Stata/R is required. Each session will cover the following for either Stata or R (RStudio):
- Data transfer.
- Data preparation.
- Descriptive statistics.
- Introduction to data visualization.
- Introduction to linear regression.

Note: All sessions cover the same material. The only difference is in the software.
